Because You Can Never Be Too Safe

Touchless Deposit of Sharps

The automatic rotating chamber is designed to safely deposit sharps into the puncture resistant container. If necessary, sharps can be dropped manually by using the actuating lever.

- Optional glove box may be attached to the wall cabinet
- Additional glove boxes may be attached to the wall

Horizontal Entry Sharps Containers

Horizontal entry sharps containers operate the same as the 5 qt. wall mounted system for touchless deposit of sharps.

Other Features

- Horizontal drop maximizes the use of the container
- Available in sizes small (4 qt.), medium (8 qt.) and large (14 qt.)
- All sizes may be mounted to the wall using optional wall mounting bracket
- 4 qt. and 8 qt. containers are also ideal for countertop use

Big Mouth Sharps Containers

These containers feature a large opening to accommodate bulky sharps and contaminated materials.

The Big Mouth Containers should never be used in areas accessible to patients or to the public

Other Features

- Large screw cap closure with locking device
- Available in sizes medium (8 qt.) and large (14 qt.)
- Both sizes may be mounted to the wall using optional wall mounting bracket
